

School Educators Training

03th-05th of October 2021 (+ 2 travel Days)
Paphos, Cyprus

About **CROSSOVER** Project

Mission

To develop an innovative empowerment program for students using Sport and Physical Activity (SPA) as a tool to develop skills and key competences with a strong focus on personal, social and learning to learn competence, promoting school success, promoting social inclusion and preventing Early School Leaving (ESL). Based on a preliminary research, we will create CROSSOVER program through SPA, targeting students aged 12-14, tackling 3 dimensions:

- 1) Development of personal, social and learning to learn competences such as self-awareness, self efficacy, confidence, motivation, resilience, behaviour management, self-determination, communication, cooperation, conflict management, among others;
- 2) Exploring cultural awareness and expression competences, fostering intercultural dialogue, diversity and social inclusion;
- 3) Connecting the dots: using competencies learned through sport in school and life.

About the Training

Objectives

it's a preparatory activity for the pilot-tests. After the programme design, we will implement this initial training for the staff that will be involved in the pilot-tests. It will approach the transversal concepts and methodology to be used in the pilot-tests, as well as more specific contents of it. It will also be provided information to implement the Program validation.

The participants of this activity will then have the responsibility to plan, guide and manage each pilot-test and target group, ensuring that the objectives are met effectively.

The objectives of C2 are expected to be:

- To become aware of the role of a facilitator in the pilot-tests;
- To prepare the facilitators for their role in the pilot-tests implementation;
- To reflect on the program designed;
- To discover specificities of the target group in pilot-tests;
- To understand how to transfer the program to practice;
- To discover tools of Non-Formal Education, facilitation and group management.
- To develop competences in dealing with diversity and in communication.

Participants Profile

The participants in this training activity should be the staff involved in implementing the pilot-test in each country and they must have a FORMAL LINK with the organization (with date before project starts).

Once we have different type of organizations and in order to benefit from their different experiences, profiles and specific expertise and to produce relevant and high quality project results, the number of participants from each country is different:

Portugal: will involve 5 participants, involving the coordinating person, 2 educators/trainers from NGO and 2 teachers from school.

Italy and Cyprus: will involve 2 educators/trainers from the NGO and 2 teachers from school.

Turkey and Romania: will involve 3 teachers.

NOTE: THIS NUMBERS CAN BE REVIEWED DUE TO COVID
RESTRICTIONS

How to arrive in Cyprus

You are strongly advised to book your tickets to
Larnaca International Airport
or Paphos International Airport.

1. Cyprus is not yet a fully-fledged member of the Schengen area; so you will have to present a valid passport or identity card at the passport controls.
2. Please don't book your tickets to any airport in northern Cyprus as it is not officially recognized in the Republic of Cyprus and tickets will not be refunded by our project.

*Before booking any tickets you are strongly
recommended to inform the host organisation
about your travel plan.
